ABOUT US

Who We Are

Place of business since 1960 · three generations

OUR STORY

The journey began in 1960, when Late Shri Pyarelal Pathak founded Pathak Industries at 117 G.T. Road, Salkia, Howrah. In 1979 Mr. Tarsemlal Pathak became founding director of Pathak Machine Tools and took the business to new heights. In 2012 Mr. T.L. Pathak formed the TL Pathak Group from the same place where it all began, with the same founding principles and a new target. Today the Group manufactures and supplies conventional machine tools, CNC machinery, sheet-metal machines and scrap-baling solutions from facilities across India.
