ABOUT US

Who We Are

Place of business since 1960 · three generations

OUR STORY

The journey began in 1960, when Late Shri Pyarelal Pathak founded Pathak Industries at 117 G.T. Road, Salkia, Howrah. In 1979 Mr. Tarsemlal Pathak became founding director of Pathak Machine Tools and took the business to new heights. In 2012 Mr. T.L. Pathak formed the TL Pathak Group from the same place where it all began, with the same founding principles and a new target. Today the Group manufactures and supplies conventional machine tools, CNC machinery, sheet-metal machines and scrap-baling solutions from facilities across India.

VISION & MISSION

OUR VISION

To grow as a leading and most trusted manufacturing unit of machines in India.

OUR MISSION

Durable, advanced products at economic, competitive prices for the industrial growth of our customers.

WHY TL PATHAK GROUP

- Modern Design
- Modern Technology
- Robust Construction
- Zero Installation Cost
- Hassle-free Delivery
- Low Maintenance Cost

TRUSTED BY

Sub: Quotation for 100 Ton × 3000 mm CNC Electro-Hydraulic Servo Press Brake with DE18 CNC Control

Dear Sir / Madam, thank you for your enquiry. We are pleased to offer our CNC Press Brake as detailed below, along with the complete technical specification and commercial terms.

Representative image. Colour and appearance may vary.

CNC Electro-Hydraulic Servo Press Brake

100 T × 3000 mm · DE18 CNC · 4+1 Axis

- **100 Ton** — Bending force
- **3000 mm** — Table length
- **4+1 Axis** — Y1, Y2, X, R + crowning
- **±0.01 mm** — Positioning accuracy
- **120 mm/s** — Fast approach
- **12.4 kW** — Servo main motor

PRICE SCHEDULE

Sr.	Description	HSN	Qty	Rate (₹)	Amount (₹)
1	**CNC Electro-Hydraulic Servo Press Brake – 100 T × 3000 mm** DE18 CNC controller, Rexroth servo hydraulics, Y1/Y2 synchronised cylinders, CNC back gauge, quick-clamp upper tooling, CNC crowning table, standard dies, foot pedal, tool kit & documentation.	8462	1 Set	20,75,000.00	20,75,000.00

Sub-total	20,75,000.00
IGST @ 18%	3,73,500.00
Delivery up to Kolkata	**FREE**
Freight from Kolkata to Mangalore	Customer's scope
GRAND TOTAL	**₹ 24,48,500.00**

Amount in words: **Rupees Twenty-Four Lakh Forty-Eight Thousand Five Hundred Only**

TECHNICAL

Specifications

Key parameters and features of the offered machine

TECHNICAL SPECIFICATIONS

Nominal bending force	**1000 kN (100 Ton)**
Working table length	**3000 mm**
Distance between columns	**2600 mm**
Throat depth	**400 mm**
Ram (slide) stroke	**200 mm**
Maximum open height	**590 mm**
Controlled axes	**4+1 (Y1, Y2, X, R + crowning)**
Main motor power	**12.4 kW (servo)**

Ram speed – fast approach	**120 mm/s**
Ram speed – working	**8 mm/s**
Ram speed – return	**100 mm/s**
Positioning accuracy	**±0.01 mm**
Y1/Y2 synchronisation	**±0.02 mm**
Hydraulic rated pressure	**25 MPa**
Machine weight (approx.)	**7 Ton**
Power supply	**380 V ±10%, 50 Hz, 3-ph**

KEY FEATURES

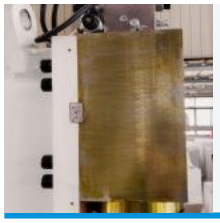

DE18 CNC Control

Colour touchscreen with graphical programming. Stores 1000+ programs with multi-step bending, automatic springback and crowning calculation. USB and Ethernet.

Servo Hydraulic Drive

Rexroth electro-hydraulic servo system with Inovance servo motor. Pumps oil only when needed, saving about 30% energy, with low noise.

Y1/Y2 Synchronised Cylinders

Twin forged-steel cylinders with linear-scale feedback keep both sides of the ram level, even for off-centre bends.

CNC Back Gauge

Ball-screw back gauge: X-axis 0–1500 mm plus R-axis height adjustment. Adjustable fingers for full-length 3 m sheets.

Quick-Clamp Tooling

Quick-release clamping cuts die-change time to about 1/5 of bolted clamping. Segmented dies hardened to HRC 60–62.

Electricals & Safety

Electrical cabinet with overload protection, movable foot pedal with emergency stop, and on-screen fault codes.

Rigid welded frame: stress-relieved by vibration ageing and machined in a single setup. **CNC crowning table:** automatic deflection compensation keeps straightness within 0.1 mm/m over the full 3 m length.

TERMS

Terms & Conditions

Components, supply scope, commercial terms and bank details

COMPONENTS & BRANDS

CNC system	**DE18 (Sanyuan)**
Hydraulic system	**Rexroth**
Main servo motor	**Inovance**
Back-gauge servo	**Nanjing Estun**
Master cylinder	**Shandong Taifeng**
Linear scale	**German Alpha**
Seals	**NOK / Walca (Japan)**
Ball screw	**Shangyin (Taiwan)**

STANDARD SUPPLY

- Upper die (punch) – 1 set & lower die – 1 set
- Foot pedal with emergency stop
- Pre-loading device; foundation bolts, nuts, washers & plates
- Grease gun & hexagon spanner set
- Mechanical & CNC programming manuals
- Electrical, hydraulic & lubrication diagrams
- Foundation & lifting drawings
- Certificate of conformity & packing list

SITE REQUIREMENTS

- 380–415 V ±10%, 50 Hz, 3-phase supply
- 0–40 °C, 20–80% RH; level foundation, dust-free, no strong vibration

COMMERCIAL TERMS & CONDITIONS

Price	₹ 20,75,000/- for one complete machine, as per the specification above.
GST	Extra at actuals. IGST @ 18% (₹ 3,73,500/-) applies, as this is an inter-state supply from West Bengal to Karnataka.
Delivery	**Free delivery up to Kolkata only.** Freight from Kolkata to Mangalore, transit insurance and unloading at site are in the customer's scope.
Payment	As mutually agreed at the time of order confirmation.
Delivery period	To be confirmed at the time of order, subject to stock availability.
Installation	Installation, commissioning and operator training by a TL Pathak Group service engineer.
Warranty	12 months from the date of supply against manufacturing defects. Consumables, wear parts and misuse are not covered.
Validity	30 days from the date of quotation.
Jurisdiction	Subject to Howrah (West Bengal) jurisdiction.
